

Playbook – Landing Pages

Create a new page
Create a title banner
Create a content banner
Create Rich text

Create a New Page

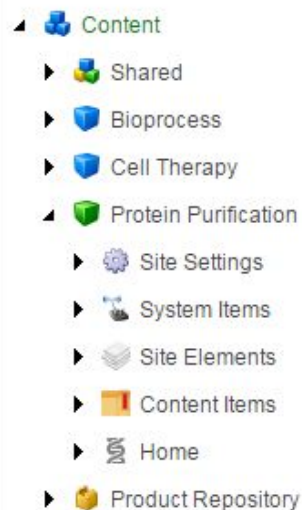

1. Navigate to SiteCore DEV:

<http://dev-management-1-lsdigital.cloud.health.ge.com/sitecore/login>

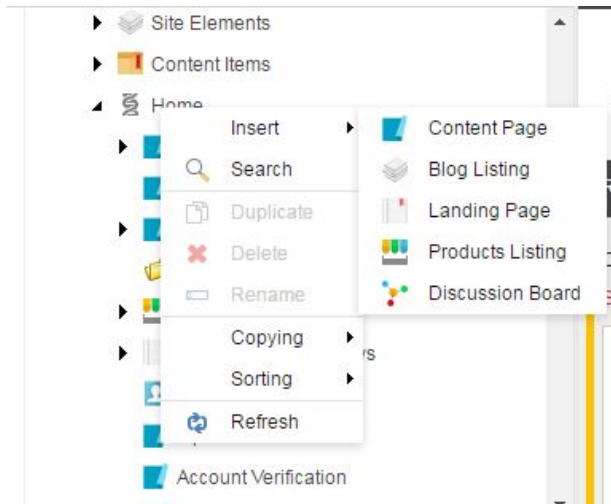

or SiteCore PROD:

<http://prod-management-1-lsdigital.cloud.health.ge.com/sitecore/login>

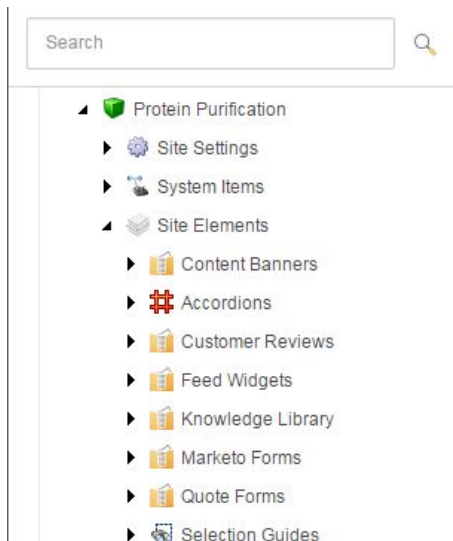

2. Sign in – you will be prompted to enter your SiteCore username or email and Password.
3. From the Content Menu > Protein Purification > Home

4. Right click and select “Insert Content Page” and add the title.

5. Once the page is done, we need to create all the Site Elements, they are located on Protein Purification > Site Elements:

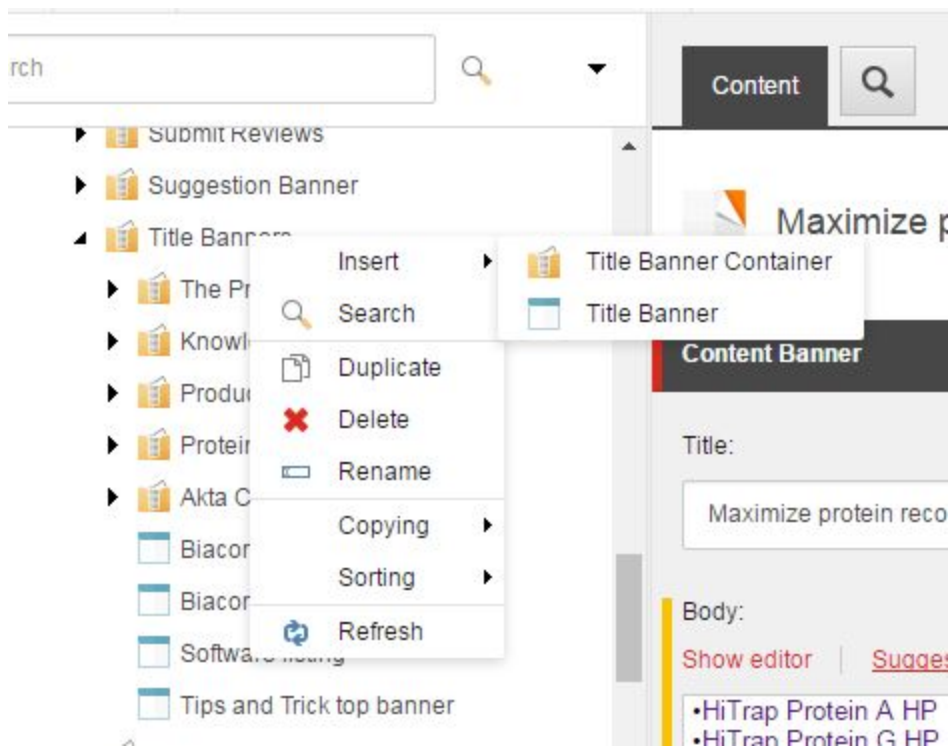

Create a Title Banner

- The requestor will provide us with the banner image.
 - ✓ First check if the banner dimensions are OK: 2000x600 px (?)
 - ✓ Upload this image to the Media Library: check playbook "Uploading images to the Media Library"

On SiteCore select the Title Banner on Site Element:

6. Insert a new Title Banner under the proper Title Banner Container and fill the Title and the Tagline:

Submit Reviews

Suggestion Banner

Title Banner

Title:

Test Banner Carolina

Tagline:

Share your tips, ideas about painpoints that you'd like us to solve, or new product ideas.

Add a title and a Tagline (text under the title)

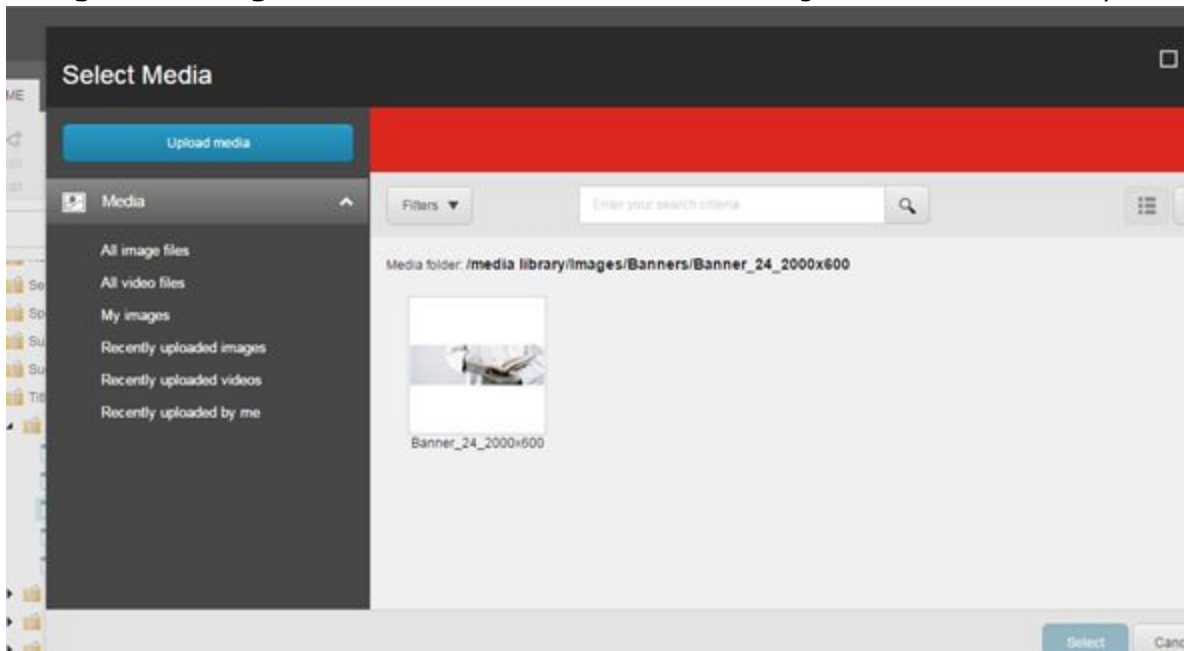

Section Styling: Landing

Title Styling: Leading

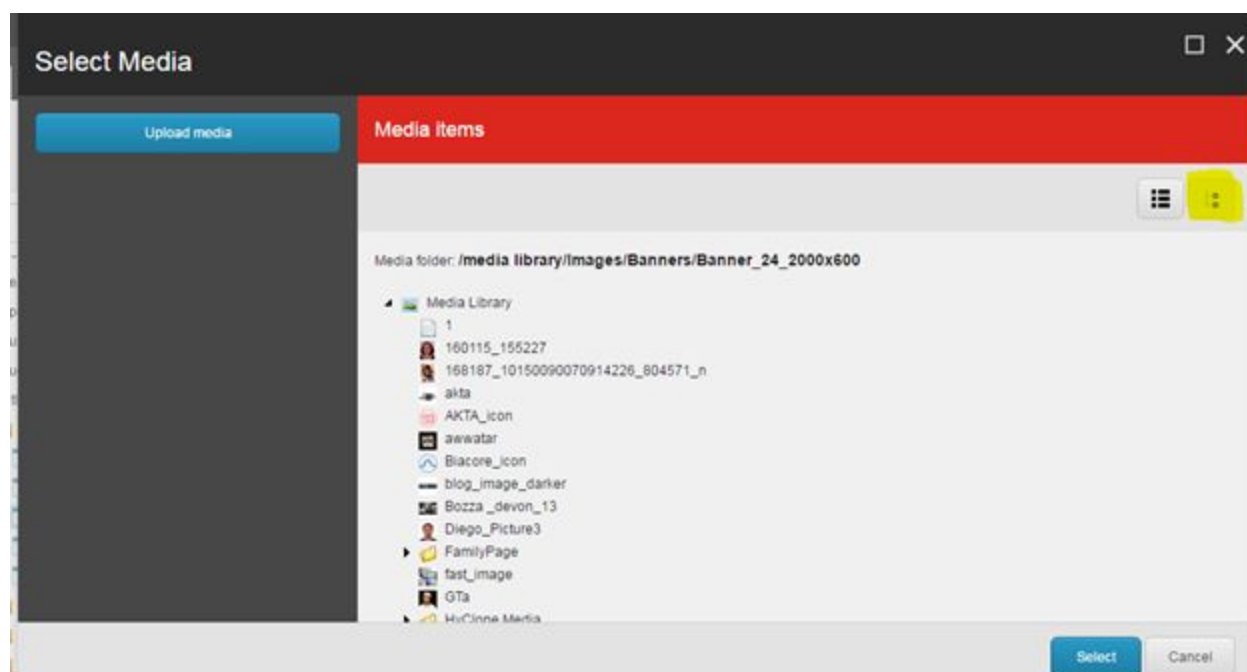

Tagline Styling: Leading

Background Color: white

Background Image Extra Small: Browse the banner image on the Media Library:

Browse the image on All image files on the Media Library: Select the list view> Search on the list: Media Library > Images > Banners

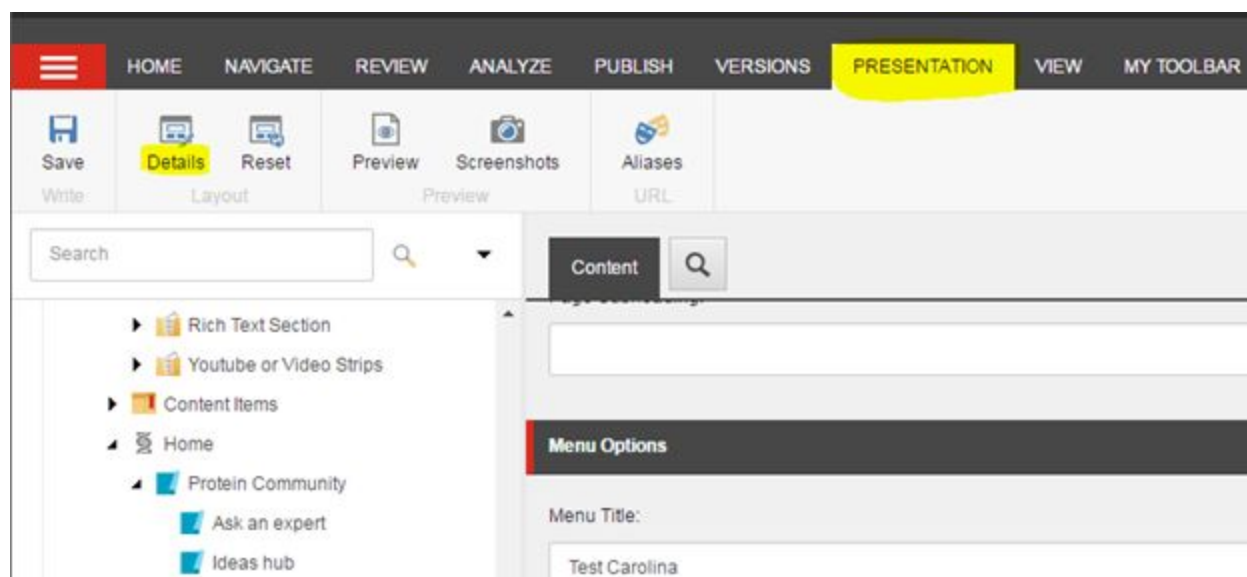

Copy the URL and paste on the others fields and SAVE.

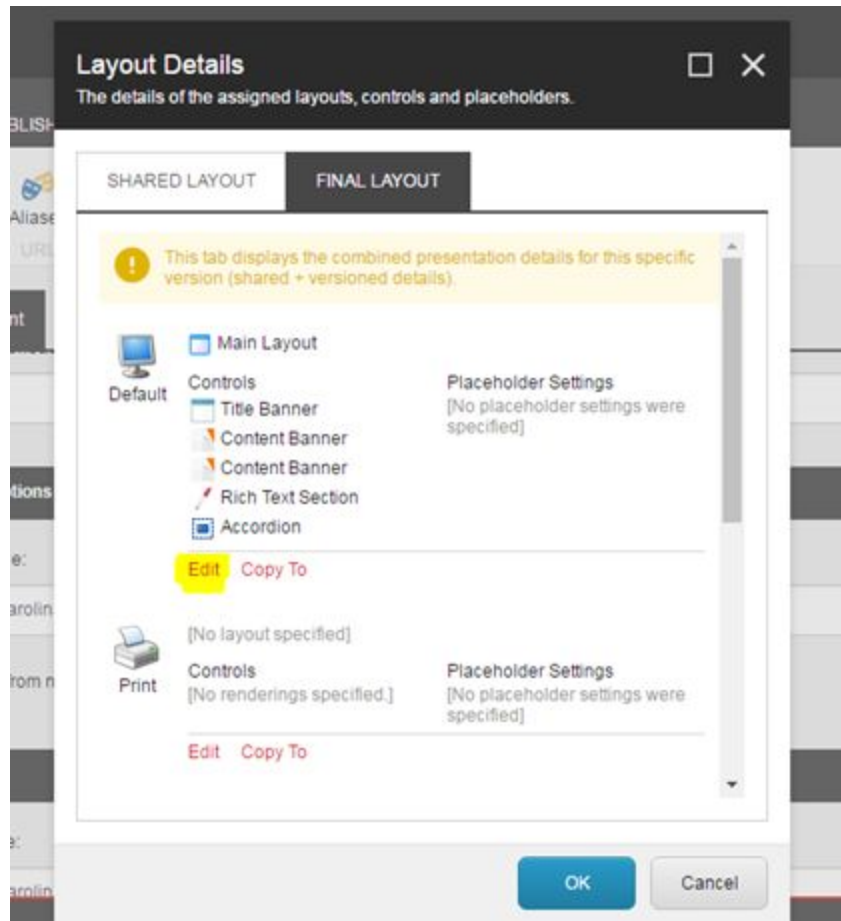

Now we must associate the Title banner to the New page.

Back to the page that we created: Content > Protein Purification > Home > Protein Community > Select the New page

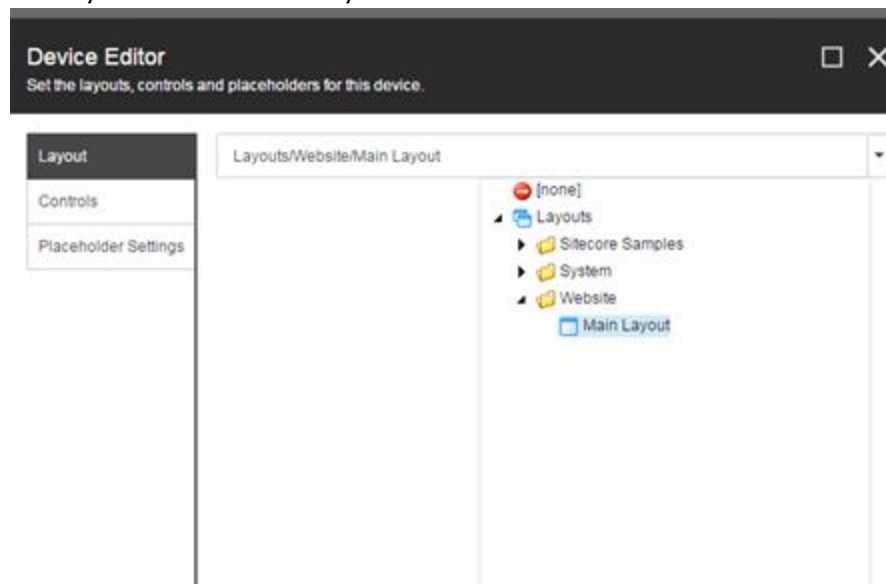

Go to Presentation > Details

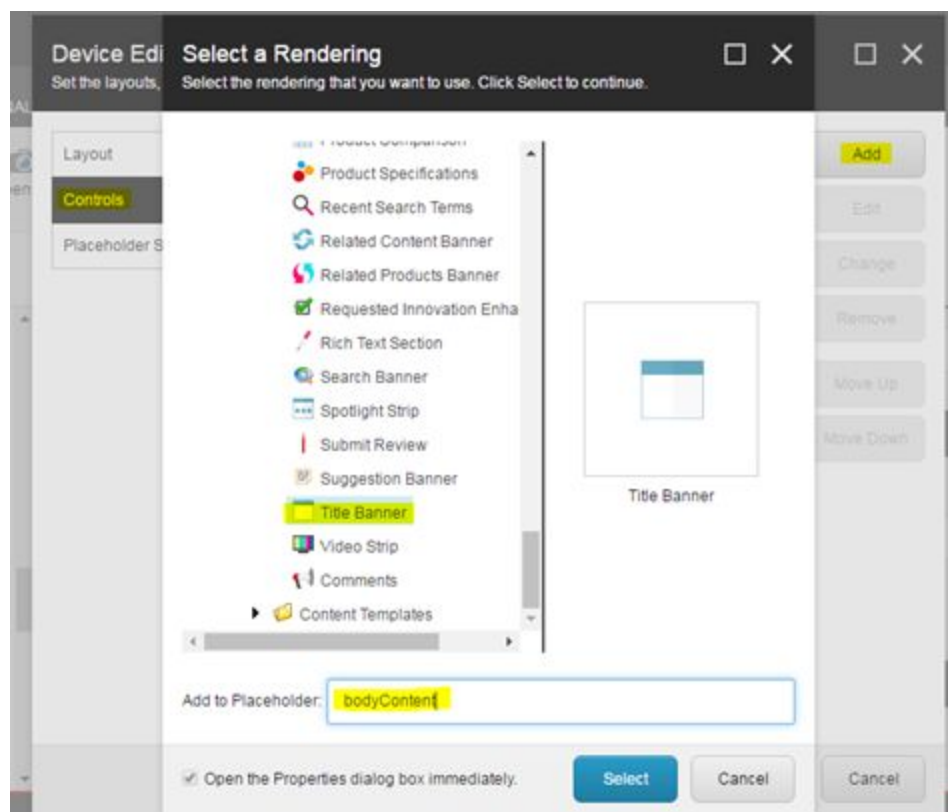

On Details, select Final Layout and Edit:

On Layout select Main Layout

On **Controls**, select Add and chose the Title Banner Site element:

Add a Placeholder:

For Protein pages add the Placeholder: "bodyContent"

For Bioprocess pages: "bpbodyContent"

On Control Properties: Browse the Title banner URL that we've created before

Select the Associated Content

Select the content that you want to associate with the rendering and use as the data

! The 'Title Banners' item is not a valid selection.

Select Existing Content

Search for Content

Create New Content

Select an existing content item.

- Title Banners**
 - The Protein Community
 - Ask an expert
 - Ideas hub
 - Test Banner Carolina**
 - The Protein Community
 - Title Banner
 - Knowledge Library
 - Products
 - Protein Blog and News
 - Akta Club Page
 - Biacore club banner short
 - Biacore software

Select OK and we can see all the elements that we're going to have in our new page:

Layout Details

The details of the assigned layouts, controls and placeholders.

SHARED LAYOUT

FINAL LAYOUT

! This tab displays the combined presentation details for this specific version (shared + versioned details).
